Cytopathology

The Yale Cytopathology Program operates a comprehensive laboratory that offers state-of-the-art facilities and equipment and a wide variety of testing procedures. The Cytopathology Service is responsible for rendering consultative reports derived from the examination of cytological preparations. These include samples for the screening of cervical cancer and diagnostic specimens obtained from biological fluids, scrapings, or by Fine Needle Aspiration (FNA). We also use modern molecular technologies to detect and type human papillomaviruses and to reveal molecular alterations characteristic of tumor cells.

Guoping Cai, MD
Associate Professor of Pathology

Angelique W. Levi, MD
Associate Professor of Pathology
Director, Pathology Outreach

Isil Yildiz-Aktas, MD, MPH
Assistant Professor of Pathology

Rebecca Baldassarri, MD
Assistant Professor of Pathology

Abi Raad, Rita, MD
Assistant Professor of Pathology

Adebowale Adeniran, MD
Associate Professor of Pathology
Director, Cytopathology and Cytology Laboratory

Instructor in Pathology

Gynecologic Pathology

The Yale Gynecologic Pathology Program offers world-renowned diagnostic and therapeutic services. Our Gynecologic Pathology team receives diagnostically challenging cases from around the world, and performs not only routine evaluation of gross and microscopic specimens, but can also carry out specialized electron microscopic, immunohistochemical, and sophisticated molecular studies.

Rita Abi Raad, MD
Assistant Professor of Pathology

Natalia Buza, MD
Associate Professor of Pathology
Associate Director, Gynecologic Pathology
Associate Director, Pathology Residency Program

Serena Wong, MD
Assistant Professor of Pathology

Peter Humphrey, MD, PhD
Professor of Pathology
Director, Genitourinary Pathology

Pei Hui, MD, PhD
Professor of Pathology and Obstetrics, Gynecology and Reproductive Sciences
Director, Gynecologic Pathology
Clinical Director, Molecular Diagnostics Laboratory

Pei Hui, MD
Professor of Pathology and Obstetrics, Gynecology and Reproductive Sciences
Director, Gynecologic Pathology
Clinical Director, Molecular Diagnostics Laboratory

Natalia Buza, MD
